# euro pyro

Reims - France

50<sup>th</sup>  
IPS SEMINAR

The AF3P and GTPS, with the support of IPS, organize the EUROPYRO 2027/50th IPS conference in Reims (France). This event gathers every 4 years representatives from industry and research working in the field of explosives, pyrotechnics and energetic materials. The IPS deliver two special awards, Dr. Bernard E. Douda IPS-Young Scientist Award and Frank Carver Bursary Award. The recipients must present their papers at the conference. The conference will focus on:

- Energetic materials : synthesis, formulation, characterization and manufacturing process
- New explosive devices, including ignition systems
- New technologies : RAM, additive manufacturing, ...
- Applications to solid propulsion: solid rocket motors, gas generators...
- Civil high explosives
- Reliability and ageing of energetic materials
- Shock waves and detonics
- Low explosives and fireworks
- Recycling, ecodesign and waste disposals
- Regulations
- Global security : threats and detection technologies
- Uses of AI for pyrotechnic innovation
- High explosives initiation and related metrology

Organized with the support and partnership of :

Deadline for abstracts :  
30th november 2026

Deadline for full papers :  
31st may 2027

Complete information and registration forms are available on :

[www.europyro2027.org](http://www.europyro2027.org)

Abstract must be uploaded on the dedicated website.  
 Booths for exhibition will be available within conference centre during seminar.  
 Presentations (talks, posters) shall be in english and unclassified.

**SEMINAR CHAIRMAN**  
 Dominique MEDUS  
 (Etienne Lacroix-GTPS Chairman,  
 France)

**SCIENTIFIC COMMITTEE**  
 Didier POUILLAIN (CEA, France)  
 Secretary : Antoine OSMONT  
 (CEA, France)

	ROXEL	Stéphane BESOMBES
	ENSMA	Ashwin CHINNAYYA
	THALES	Christophe COULOUARN
	National Defense Academy	Shingo DATE
